Proposal Number	Proposal Text	Proponent	Mgmt Rec	Vote Instruction
1	Accept Financial Statements and Statutory Reports	Mgmt	For	For
2	Approve Remuneration Report	Mgmt	For	Against
<p><i>Voter Rationale: While total variable pay sat below the six times base salary ratio threshold this year, we cannot support the remuneration report due to the granting of option shares under this year's long-term incentive awards. We prefer equity-based remuneration to take the form of performance shares instead of options, since the use of a strike price below which options are out-of-the-money changes significantly the risk-reward profile faced by their holders and can encourage management to focus too much on share price performance. The use of options also brings unnecessary complexity.</i></p>				
3	Approve Remuneration Policy	Mgmt	For	Against
<p><i>Voter Rationale: We have concerns regarding the maximum pay opportunity. Our guideline is that a ratio of more than four times base salary is concerning, and more than six times is unlikely to gain our support without a compelling justification. In this remuneration policy, the maximum variable opportunity exceeds six times base salary. We also prefer equity-based remuneration to take the form of performance shares instead of options, since the use of a strike price below which options are out-of-the-money changes significantly the risk-reward profile faced by their holders and can encourage management to focus too much on share price performance. The use of options also brings unnecessary complexity. We informed Diageo Plc that we expected to vote against the remuneration policy on these grounds and did not receive a response. Without a sufficient justification from management, we cannot support this remuneration policy.</i></p>				
4	Approve Long Term Incentive Plan	Mgmt	For	Against
<p><i>Voter Rationale: The proposed DLTIP can be awarded in the form of share options, which we cannot support. We prefer equity-based remuneration to take the form of performance shares instead of options, since the use of a strike price below which options are out-of-the-money changes significantly the risk-reward profile faced by their holders and can encourage management to focus too much on share price performance. The use of options also brings unnecessary complexity.</i></p>
